

## Patient Eligibility Screening Record for Adults 19 Years of Age or Older

### For sites enrolled in the Uninsured and Underinsured Adult Vaccine (UUAV) program

Providers are required to screen at each visit in order to know if patients are eligible for the UUAV program and which stock of vaccine to use at that visit. This same record may be used for all subsequent visits as long as the patient's eligibility status has not changed. Retain this record (or equivalent paper or electronic record) for three years following the date(s) of vaccine administration.

Subsequent visits: Date/initial box if response has not changed.										
Screening date:										
Patient:							Birth date: (Must be 19 years or older)			
Provider:										

#### Eligible patients: Use UUAV vaccine

- Uninsured (patient has no health insurance coverage)
- Underinsured
  - Patient has private insurance that does not cover vaccines (eligible only for the specific vaccine that insurance does not cover) or that caps prevention services (eligible after cap is reached).
  - Patient has Medicare policy that does not cover specific vaccines (eligible only for the specific vaccines not covered).

#### Not eligible: Use private vaccine

- Patient is a Minnesota Health Care Program (MHCP) enrollee (Medical Assistance (MA) or MinnesotaCare)
- Patient is on Medicare that covers the specific vaccine, even if deductible must be met first.
- Patient has private insurance that covers immunizations, even if deductible must be met first.

#### The UUAV program provides the following vaccines for uninsured and underinsured adults:

- Hepatitis A (Havrix)
- Hepatitis B (Engerix)
- HPV (Gardasil 9)
- Influenza (IIV)
- MenB (Bexsero and Trumenba)
- MCV4 (Menactra and Menveo)
- MMR (MMR1)
- PCV13 (Pneumovax)
- PPSV23 (Pneumovax)
- Td (generic)
- Tdap (Adacel and Boostrix)
- Varicella (Varivax)
- Zoster (Shingrix)
