

Sleepy Eye Public School Registration Policy

The high school counselor and the principal are responsible for creating a high school schedule that provides a well-rounded education to our students. Core subjects will be offered for the entire year. The minimum number needed for a class to be offered is ten students, with the exception of college and upper level, high rigor core classes, which shall have a minimum of five students. Students will have an opportunity to add and drop classes until the start of each semester as long as the class maintains the minimum number of students required for that class.
