

Sleepy Eye Elementary School

Title I Compact

2025-2026

Purpose Statement: At Sleepy Eye Elementary we strive to meet the needs of each individual student to maximize student potential. One of the services available to students to make this possible is Title I. The focus of the Title I program is to provide additional academic support and learning opportunities in an effort to help all children master challenging curricula and meet state standards in core academic subjects. As a result, a student who has the opportunity to receive Title I services is directly dependent upon the standards being assessed and student success with those standards. Despite the services available, we understand that learners are developed not only at school, but at home as well. In an effort to achieve the best possible outcome for each individual student, all parties should be aware of the factors affecting student success in both of these settings. This compact outlines the roles and expectations that the student, parent, teacher, and administrator have on student success. Please review this compact with your child and sign to acknowledge your role in the learning process.
